Professional Summary

Accomplished Physician-Executive with over 35 years of experience spanning integrative medicine and biotechnology leadership. A strategic leader with a proven record of founding and guiding companies from research to commercialization, particularly in immunology, peptide medicine, regenerative medicine, and gene therapy. Combines deep clinical expertise in patient care with executive acumen in drug development, clinical research, and corporate strategy.

Professional Experience

SMSbiotech | 2026 – Present

Clinical Advisor

- Provide clinical guidance on treatment protocols and implementation strategies for Small Mobile Stem (SMS) cell technology, ensuring high standards of care across clinical sites.
- Collaborate with internal teams and external partners to support clinical integration, identify trial opportunities, and establish strategic partnerships.
- Contribute to medical oversight and regulatory preparation, including protocol refinement, data collection, and IRB-related activities.

InfinityEpigenetics | San Francisco, CA | 2023 – Present

Founder

- Established a private medical consulting practice focused on translating epigenetic and genomic data into personalized patient health plans.
- Manage all business operations, including client acquisition, service development, and strategic growth.

Holistic Bio Spa | Puerto Vallarta, Mexico | 2023 – Present

Director of Innovation and Clinical Supervision

- Provide expert guidance on clinical protocols and patient treatment strategies for integrating advanced customized interventions.
- Collaborate with international medical teams to ensure the highest standards of care and efficacy.

Cellecta Bio | Mountain View, CA | 2023 – Present

Clinical Advisor

- Collaborate with cross-functional teams to develop and apply customized omics/transcriptomics assays and ex vivo predictive models that measure and predict patient responses to peptide, cell/regenerative, and gene therapies.

Arvax Pty Ltd | Australia | 2023 – Present

Director of Research and Development

- Lead translational research and development at a biotechnology platform focused on longevity and age-related innovation.
- Direct asset identification and technical evaluation, shaping the acquisition pipeline across vaccine, small-molecule, and peptide therapeutics.
- Oversee scientific due diligence, preclinical validation, and biomarker-driven study design to generate regulatory-grade data.
- Structure co-development programs and advance studies under Australia's CTN/CTX frameworks for rapid, capital-efficient clinical translation.

Agathera | Little Rock, AR | 2013 – 2018

Board Member

- Served on the Board of Directors, providing strategic guidance and clinical immunology expertise.
- Guided research teams from the University of Pennsylvania in the development of multiple immunotherapies for various cancers.

Cureline, Inc. | South San Francisco, CA | 2010 – 2022

Clinical Advisor

- Provided expert clinical insights to a leading global CRO, contributing to the advancement of human biospecimen research and development pipelines.

GMD BioAdvance | San Francisco, CA | 2005 – 2011

President

- Directed a biotechnology firm focused on developing therapeutic countermeasures for high-threat pathogens as part of the US Project BioShield and biodefense initiatives.
- Partnered directly with the U.S. Department of Defense to design and execute programs countering threats of bioterrorism.

Private Practice, Integrative Medicine | San Francisco, CA | 2000 – Present

Physician & Founder

- Established and managed a successful integrative medicine practice focused on longevity, anti-aging, and regenerative medicine.
- Design and implement personalized anti-aging and healthspan protocols using evidence-based interventions including peptide, gene, and cell therapies.

St. Luke's Hospital | San Francisco, CA | 1998 – 2004

Attending Physician

- Delivered specialized inpatient medical care as an Attending Physician.
 - Collaborated within a multidisciplinary team to create and manage comprehensive patient treatment plans.
-

Education & Postgraduate Training

Moscow Research Institute of Immunology | Moscow, Russia | 1988 – 1992

Postgraduate Research & Training in Clinical Immunology
